

DCE SERIES CASE SEALERS

An automated case sealing machine designed to deliver fast, reliable, and consistent carton sealing for modern packaging lines — managing flap closing and sealing in a single streamlined process.

Built as a plug-and-play, operator-friendly solution, it handles a wide variety of carton sizes and integrates easily into existing workflows with minimal training required.

By automating the sealing process, it significantly reduces manual labour, improves efficiency, and supports continuous operation — maintaining consistent seal quality and lowering costs across the packaging line.

Benefits

- Energy efficient
- Space saving
- Process automation
- Quick setup
- Stable sealing
- Reduced downtime
- Scalable output
- Enhanced productivity
- Safe operation
- Compact design
- Consistent output

Optional: Hot Melt Gluing

Key Features

- Consistent sealing performance
- High speed operation
- User friendly controls
- Robust machine construction
- Precision sealing control
- Reduced manual handling
- Stable carton handling
- Easy line integration
- Compact machine footprint

Case Dimension Range

Min. 210 L X 150 W X 140 H Mm

Max. 650 L X 450 W X 470 H Mm
